

## JX-7 BURNISHER MACHINE

The Concrete Protector's JX-7 Burnisher is engineered for high-speed performance and operator safety. Available in 21", 24", and 27" sizes, JX-7 machines can burnish vinyl tile, terrazzo, and concrete floors at rates of up to 35,000 square feet per hour.

A patented floating shroud virtually eliminates airborne dust, helping keep surrounding areas clean while protecting the operator. The patented variable jet fuel system significantly reduces emissions and is certified to be up to 53% cleaner than other engines in its class.

### Specifications

Product Function	Floor Burnishing
Operation Mode	Walk-Behind Pad Assist
Power	LX700 20hp Propane Engine
Performance	34,000 SqFt per hour
Working Width	27"
Run Time	6 Hours Per 20lb Propane Cylinder
Pad / Brush Size	27"
Pad Speed	1200-2100 RPM
Dimensions	28"W x 53"L x 48"H

### GREAT BENEFITS

- High-speed rotation achieves a brilliant, glossy finish
- Regular burnishing helps densify and harden floor surfaces
- Powerful motor and high torque
- Equipped with a built-in dust collection system
- Adjustable handles, ergonomic features, and easy-to-operate controls
- Adjustable pad pressure
