

## PULSE-BAC PRO 176

The Concrete Protector's Pulse- Bac Pro 176 is an industrial strength vacuum used to collect dust and debris from hand grinders, hammer drills, and other hand tools as well as smaller walk-behind grinders, like edge grinders. The Pulse-Bac Pro 176 is equipped with self-cleaning technology. Its patented automatic pulse-clean technology cleans the filter while you work, eliminating clogging issues. This easy empty vacuum prevents 90% of dust and debris from reaching the filter.
