

HUM B GRINDER

The Concrete Protector's Hum-B Grinder features a powerful 15-amp motor delivering up to 6,600 RPM for rapid concrete grinding and efficient coating removal. Designed to cover more square footage in less time, the Hum-B reduces operator effort while prioritizing comfort. Its ergonomic, upright operating position helps minimize fatigue, back strain, and job-site injuries.

Ideal for concrete, terrazzo, and stone surfaces, the Hum-B also excels at removing paint, thin-set, adhesives, VCT, mastic, and epoxy. It is the only edge grinder equipped with the patented Dust Grabber™ shroud, which allows the unit to glide smoothly across the surface—like a puck on ice—eliminating suction lock while capturing up to 99% of airborne dust.

ACCESSORIES:

COMMERCIAL HOSE 2" x 25'

SKU# PB-7153 7"

PCD 24 SEGMENT

SKU# DCW-8749

GREAT BENEFITS

- No-load 6,600 RPM
- Powerful 15 AMP motor
- 2" Vacuum Port
- Rear trigger switch with lock-on for operator convenience
- Labyrinth construction prevents debris from penetrating the machine
- Rubberized soft grip handle provides increased operator comfort
- 150 Watt Halogen Light
