

NEVER PUMP BACKPACK SPRAYER

The Concrete Protector's Never Pump Backpack Sprayer is a highly efficient, versatile tool ideal for applying stains and other decorative concrete products, as well as for pest control in crops, flowers, and gardens, sanitation in public spaces, and epidemic control in livestock and poultry houses.

Lightweight and easy to carry, this sprayer saves labor time and delivers three to four times the efficiency of a manual sprayer, with continuous operation for up to 10 hours. Equipped with a mini-diaphragm pump, it can spray up to 110 gallons of liquid in a single day. Triple screens help prevent debris or particles from clogging the nozzle, ensuring smooth, consistent operation.

ACCESSORIES:

**Penetrating
Hydrophobic Sealer**
Sku# SE-5400

GREAT BENEFITS

- High performance rechargeable and removable lithium ion battery powered sprayer
- Heavy-duty nozzle system, including stream, dual mist, fan and shower
- Large comfortable shutoff valve that locks on for continuous spraying
- Cushioned ergonomic straps with adjustable pads for added comfort
