

HOVER SCRUBBER

The Hover Scrubber is a high-performance surface cleaner designed for comfort and ease of use. It delivers fast, even cleaning across large flat surfaces, making it ideal for driveways, parking lots, rooftops, and pool decks. Its design also eliminates the zebra-stripping commonly produced by standard sprayers.

By reducing cleaning time by up to 60% compared to regular nozzles, the Hover Scrubber cleans efficiently without damaging aggregate, pavers, or stamped concrete. It minimizes overspray even when operating close to walls. Lightweight, durable, and easy to maneuver, this machine is an essential tool for any cleaning operation.

WEIGHT: 32 lbs
LENGTH: 40 in.
WIDTH: 20 in.
MINIMUM GALLONS PER MINUTE: 4
MAXIMUM GALLONS PER MINUTE: 8
RATED PSI: 4,000

ACCESSORIES:
