

EPOXY NEAT COAT

The Concrete Protector's Epoxy Neat Coat is a high-gloss, cycloaliphatic amine epoxy designed to protect and enhance a variety of surfaces, including wood, veneer, metal, stone, painted surfaces, tabletops, and more. It delivers a rich, super-gloss finish while providing protection against scratches and humidity, all with minimal odor for comfortable application.

Epoxy Neat Coat is a versatile, low-odor, low-viscosity, 100% solid clear aliphatic epoxy, ideal for use with The Concrete Protector's Metallic Marble and Color Glitter systems. Metallic pigments or glitter are mixed into the Part A resin before application. In addition to the Metallic Marble system, it can be used as a build or seal coat for Rustic Concrete Wood and other interior cementitious texture systems, as well as for interior Protector Flake, Quartz, or GraniFlex systems to seal broadcast media like flakes or quartz.

ACCESSORIES:

WOOD HANDLE THREADED

SKU: TL-7393

WTF

SKU: RL-1001

MAGIC TROWEL

SKU: TL-7103

ROLLER FRAME

SKU: RL-4319

SPIKES

SKU: TL-7349

LOW VISCOSITY MIXING PADDLE

SKU: TL-7127

END CAPS

SKU: RL-4317

METALLICS

SKU: MQ-001 through MQ-030

GLOW

SKU: MQG-100 through
MQG-102

GREAT BENEFITS

- Excellent durability
- Protects concrete floors from foot traffic
- Provides excellent abrasion resistance
- Protects against most common chemicals
