

SCP SEALER

The Concrete Protector's Scientific Concrete Polishing (SCP) Sealer is a key component of the SCP system, providing essential protection for freshly polished concrete surfaces. This advanced sealer helps preserve both the appearance and durability of the floor. When used in combination with SCP Cutter and SCP Hardener, it delivers a high-gloss finish that is both visually striking and resistant to wear. Proper application and ongoing maintenance with SCP Sealer ensure that polished concrete floors remain beautiful and well-protected for years to come.

ACCESSORIES:

SCP CUTTER
SKU# SCP- 6103

SCP HARDENER=
SKU# SCP-6107

SCP FORTIFIER=
SKU# SCP-6287

HYDROPOLISH=
SKU# SCP-6319

GREAT BENEFITS

- Increased amount of stain-resistance
- Allows vapor transmission
- Keeps a longer new look
- Anti-dusting properties
- Quick drying
- Can be applied to fresh concrete
- Self-polishing
