

MPP FAST CURE

The Concrete Protector's Match Patch Pro Fast Cure concrete crack and spall repair system is specifically designed to aesthetically mimic existing concrete and meet the required abrasion resistance for architectural clear sealed and polished concrete flooring.

GREAT BENEFITS

- Cure to polish in two hours.
- Cures for initial grind in 20 to 60 minutes.
- Accepts concrete dyes.
- Densifies with Reactive Silicates.
- Does not shrink or crack.
- Can be matched to concrete of any age close to perfection on site.
- Does not fish bowl when processed.
- Can fill spall of any size up to .20 cubic feet, even very shallow spalls or scratches.
- A virtually invisible crack/spall repair material.
- No resin/cement stain ghosting or halos around repair areas.
- Bonds tenaciously at critical repair edges and does not chip or break at the thinnest feather edges.
