

MAGNETIC BROOM

The Concrete Protector's Magnetic Broom is an ergonomically designed magnetic sweeper built to collect nails, tacks, metal shavings, and metal shot left behind from shot blasting operations. It features rear-mounted rubber wheels that provide smooth movement and allow the sweeper to easily reach tight corners with excellent maneuverability. Powerful ceramic magnets extend the pickup range beyond the base of the sweeper for more efficient collection. A convenient handle-mounted release lever allows for quick and easy disposal of collected metal debris.

ACCESSORIES:

SHOT BLASTER

SKU# BW-SB6

SHOT

SKU# TL-7345,

Construction: Steel 12-Gauge Stainless Steel Body

Height: 41 in (104cm)

Width: 30in (76cm)

Weight: 60lbs (27 kgs)

Wheels: Two 8in (20cm) Rubber Wheels

Lift Capacity: 600lbs (272kgs)

GREAT BENEFITS

- Hand lever raises magnet to release debris
- Ergonomic design
- Powerful magnet
- Inset wheels
- One-hand operation
- Stainless steel construction
- Aids in the collection and recycling of metal shot from shot blasters
