

CP TEXTURE MIX

The Concrete Protector's Texture Mix is engineered to provide maximum strength and superior bonding to cured concrete substrates. It is formulated to withstand harsh freeze-thaw conditions, making it suitable for both durable and decorative concrete applications.

This versatile product can be used to create a variety of decorative finishes, including knockdown and cool-deck style textures, along with many other surface patterns. CP Texture Mix is also compatible with adhesive stencil applications and tape designs used in systems such as Rustic Concrete Wood, Grand Flagstone, and Tuscan Tile. When combined with The Concrete Protector's High Density Resin and Mineral Pigments, it allows for the creation of thousands of unique decorative designs.

ACCESSORIES:

HD RESIN

SKU# DM-5406

CP MINERAL PIGMENT

SKU# DC-2022--DC-2099

MIXING STAND

SKU# MX-3253

9-1/4" MIXING PADDL

SKU# MX-3253

ACRYLIC SHIELD 25 VOC

SKU# SE-2803

GREAT BENEFITS

- High bond strength
- High resistance to weather and freeze thaw cycles
- Slip/skid resistance
- Extremely durable and suited to vehicular traffic
- Various textures and designs can be created
