

HTC Adapter 3x8mm

The Concrete Protector's HTC Grinder Adapter 3x8mm is a precision accessory designed to expand the compatibility and versatility of HTC grinding machines. This adapter allows for the use of a variety of grinding and polishing tools with different attachment standards, providing greater flexibility for multiple applications.

Ideal for concrete surface preparation, smoothing, and polishing, the HTC Adapter 3x8mm enables secure attachment of various grinding and polishing pads. It is perfect for tasks such as removing coatings, adhesives, and other surface contaminants, making it a reliable choice for the preparation and maintenance of industrial floors in warehouses, factories, and commercial spaces.

GREAT BENEFITS

- Allows for a wider range of tooling, enabling the achievement of different grinding and polishing tasks without needing multiple machines.
- Allows quick and easy changes between different tools
- User friendly
- Improves adaptability of equipment
