

## LAVINA TO 3 PIN DZ SPHERES ADAPTER

The Concrete Protector's Lavina to 3 Pin DZ Spheres Grinder Adapter is a precision-engineered accessory that allows Lavina grinding machines to be used with tools featuring the 3-pin DZ spheres mounting system. This adapter increases versatility, enabling contractors to easily switch between different brands or tooling setups during surface preparation tasks for a seamless and efficient workflow.

Constructed from high-grade, wear-resistant materials, the adapter provides a secure and stable connection between the grinder and tooling, minimizing the risk of wobbling or detachment during operation.

### GREAT BENEFITS

- Possible to mix and match tools and equipment from different manufacturers
- User friendly
- Avoid purchasing entirely new sets of tools for different machines
- Can help improve productivity
