

NATURAL BURNISH PAD 3500#

The Concrete Protector's Natural Burnish Pad 3500# is designed to restore brilliant gloss and remove scuff marks from dull, high-traffic floors. This versatile pad is ideal for buffing and limited spray cleaning, and is specifically engineered for maintaining hard finishes in busy areas. Compatible with electric, battery, or propane machines operating at ultra-high speeds of 1500 RPM and above, it is an excellent choice for polished concrete surfaces.

ACCESSORIES:

VAPOR PROPANE TANK
SKU# SCP-6145

POLISHER/BURNISHER
SKU# SCP-6161

GREAT BENEFITS

- Restores gloss to dull floors with hard finishes while removing marks and scuffs
- For buffing and limited spray cleaning
- Natural and polyester fibers in a non-woven web bond with a resin system to permeate the entire pad
- For electric, battery, or propane machines operating
