

## PCD RIPPERS

The Concrete Protector's PCD Rippers are polycrystalline diamond tools designed for aggressive removal of tough, sticky surface materials. They are highly effective for stripping urethane epoxies, waterproofing membranes, pool deck coatings, mastics, paints, and both old and new epoxy systems, as well as VCT and carpet adhesives.

Engineered for fast and efficient coating removal, PCD Rippers deliver high-performance cutting action for demanding surface preparation applications where conventional diamond tooling may not be sufficient.

### **ACCESSORIES:**

#### **HUM B GRINDER**

Sku# PB-7169

### **GREAT BENEFITS**

- Velcro ring to attach polishing rings with velcro back
- Fast removal of self-leveling cement floors
- Fast removal of adhesive & hard residual glue
- Fast and effective removal of epoxy coating up to 10 mils
