

## CHIP BRUSH

The Concrete Protector's Chip Brush is a 2" utility brush designed for precise application on walls, trim, baseboards, decks, and doors. It is well-suited for a wide range of coating applications where control and detail work are required.

These brushes feature epoxy-set bristles to minimize shedding and ensure consistent performance. Constructed with White China bristles and sanded wood handles, they are compatible with most paints, stains, varnishes, acrylics, and gesso, making them a versatile tool for both professional and general use.

### GREAT BENEFITS

- Crafted with solid wood handles
- All-natural bristles with all-square trim shape
- Ideal for painting, staining, cleaning, arts & crafts & more
- Durable for all kinds of home improvement tasks
- Great for home, business, and industrial projects
