

18" STICKY ROLLER

Small Debris and Dust Collection

Even after thorough vacuuming, a concrete floor can still retain a significant amount of fine dust on the surface. No matter how many passes are made, some residual dust will remain.

The 18" Sticky Roller is designed to address this issue. By rolling it across the floor, it effectively lifts and removes remaining dust, dirt, and fine debris that vacuuming alone may miss. This additional step helps ensure a cleaner surface, promoting better adhesion and overall performance of subsequent coatings.

Specifications:

- 18" Sticky Roller
- 2" Diameter
- Weight: 1lb.
- Water Sensitive Adhesive
- Store in Waterproof Bag/Container

Accessories:

- Tapered Wooden Handle
- 18" Roller Frame
- 18" Roller End Caps

Easy Clean Up

After rolling the 18" Sticky Roller across the floor, dust and small debris will collect on the roller. Remove the soiled sheet and a new sheet will be exposed. Discard the soiled sheet, and the roller is ready for more collection. The 18" Sticky Roller is a great way to quickly get your concrete surface cleaner!

Useful Information

The 18" Sticky Roller is 18" in length, 2" in diameter, and weighs approximately 1 lb. This product contains water sensitive adhesive. Avoid using wet or in wet conditions. It can be stored in a waterproof bag or container when not in use.
