LIMITATIONS

- The film might not adhere well to certain surfaces, especially those that are dirty, oily, or wet.
- Excessive heat can cause the film to shrink, deform, or lose its adhesive properties.

BENEFITS

- Works great with tape applicators/maskers
- Clings to surface for easy application
- Lets light in when used on windows
- Attracts overspray and reduces flaking
- It clings to most surfaces

MASKING FILM

MASKING FILM

INSTRUCTIONS

- 1) Start at one end of the area you want to cover and gradually unroll the masking film.
- 2) Press the film gently onto the surface, ensuring it sticks well and covers the area completely.
- 3) Use masking tape or painter's tape to secure the edges of the film. This will prevent paint from seeping underneath and ensure the film stays in place.
