EDGING TOOL 5.75" CRYSTAL DROP 60# VELCRO BACK

TECHNICAL DATA SHEET

EDGING TOOL 5.75" CRYSTAL DROP 60# VELCRO BACK

BENEFITS

- Targets edges and hard-to-reach areas
- Provides a strong initial cut, removing surface imperfections and small scratches
- Easy to swap out or change tools
- Designed to wear evenly
- Compatible with most edge grinders

INSTRUCTIONS

- 1) Attach the Edging Tool to the grinder, pressing firmly on the Velcro to make sure it is securely in place.
- 2) Begin grinding with minimal pressure to get a feel for how the tool interacts with the concrete.
- 3) Move the grinder slowly and evenly along the edges to avoid gouging and to maintain a consistent finish. Concrete grinding generates heat.
- 4) If you notice excessive heat, consider taking breaks or applying water if your grinder is equipped for wet grinding.
- 5) Work in sections, using overlapping passes to cover the entire edge area evenly. Keep the tool flat against the surface to prevent uneven wear or chipping along the edges.
